

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

Claim 1 (currently amended): A package for housing consumable products comprising:  
a housing including a plurality of walls that define an opening and a lid hingedly connected to one of the walls, the lid adapted to cover the opening;

a sheet disposed inside the housing; and

a plurality of consumable products releaseably attached to either side of the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing, wherein the sheet is attached to an inner wall of the housing.

Claim 2 (canceled).

Claim 3 (original): The package of Claim 1, wherein the housing includes a plurality of walls that define an opening and one of the walls defines a cutout that assists the consumer in grasping and removing the at least one product.

Claim 4 (canceled)

Claim 5 (original): The package of Claim 1, wherein the sheet includes a plurality of adhesive areas and the consumable products releaseably adhere to the adhesive areas of the sheet.

Claim 6 (currently amended): A package for housing consumable products comprising:  
a housing including a plurality of walls that define an opening and a lid releaseably covering the opening;

a sheet disposed inside the housing; and

a plurality of consumable products releaseably attached to the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing, wherein the sheet includes a plurality of adhesive areas and the consumable products releaseably adhere to the adhesive areas of the sheet and the adhesive areas are heat activated to adhere the consumable products to the sheet.

Claim 7 (original): The package of Claim 1, wherein the sheet includes a plurality of wax areas and the consumable products releaseably adhere to the wax areas of the sheet.

Claim 8 (canceled)

Claim 9 (original): The package of Claim 1, wherein the sheet loops around the products and one side of the products releaseably attaches to an inner surface of the looped sheet.

Claim 10 (original): The package of Claim 1, wherein the sheet loops around the products and multiple sides of the products releaseably attach to inner surfaces of the looped sheet.

Claim 11 (original): The package of Claim 1, wherein the products directly contact the sheet.

Claim 12 (withdrawn): The package of Claim 1, wherein the products are individually contained in wrappers, the wrappers are releaseably attached to the sheet.

Claim 13 (original): The package of Claim 1, which includes a plurality of sheets disposed inside the housing.

Claim 14 (cancelled)

Claim 15 (withdrawn): A package for housing consumable products comprising:  
a plurality of wrappers individually enclosing a plurality of consumable products, the wrappers releaseably adhered to a sheet;  
a housing containing the sheet, the wrappers and the products; and  
an outer wrapping sealed about the housing.

Claim 16 (withdrawn): The package of Claim 15, wherein the products are confectionery products.

Claim 17 (withdrawn): The package of Claim 15, wherein the products are gum.

Claim 18 (withdrawn): A package for a consumable product comprising:  
a housing having a pair of opposing walls; and  
an adhesive area disposed on an inner surface of at least one of the opposing walls, the consumable product releasably adhered to the adhesive area of the housing.

Claim 19 (withdrawn): The package of Claim 18, wherein the adhesive area is heat activated to adhere the consumable product to the adhesive area of the housing.

Claim 20 (withdrawn): The package of Claim 18, wherein the adhesive area is a wax area disposed to the inner surface of the at least one wall, the wax area heat activated to adhere the consumable product to one of the walls.

Claim 21 (withdrawn): A method for packaging consumable products comprising:  
removably coupling the consumable products to a sheet; and  
placing the sheet and coupled products into a housing, positioning the sheet and products and configuring the housing so that a consumer can grasp, uncouple and remove one of the products.

Claim 22 (withdrawn): The method of Claim 21, which includes placing the sheet and coupled products snugly into a housing so that the sheet and products cannot fall out of the housing.

Claim 23 (withdrawn): The method of Claim 21, which includes attaching the sheet to the housing so that the sheet and products cannot fall out of the housing.

Claim 24 (withdrawn): The method of Claim 21, wherein removably coupling the consumable products to a sheet includes placing a product on the sheet and heating the sheet where the product is placed to activate an adhesive.

Claim 25 (cancelled)

Claim 26 (cancelled)

Claim 27 (currently amended): A package for housing consumable products comprising:  
a housing including a plurality of walls that define an opening and a lid releaseably covering the opening;

a sheet disposed inside the housing, the sheet including a plurality of adhesive areas;  
a plurality of consumable products releaseably attached to the adhesive areas of the sheet,  
the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing; and  
wherein the sheet is attached to an inner wall of the housing.

Claim 28 (currently amended): A package for housing consumable products comprising:  
a housing including a plurality of walls that define an opening and a lid releaseably covering the opening;

a sheet disposed inside the housing, the sheet including a plurality of adhesive areas;

a plurality of consumable products releaseably attached to the adhesive areas of the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing; and

wherein the adhesive areas are heat activated to be adhere the consumable products to the sheet.

Claim 29 (currently amended): A package for housing consumable products comprising:  
a housing;

a sheet disposed inside the housing, the sheet including a plurality of ~~adhesive~~ wax areas;  
and

a plurality of consumable products releaseably attached to the ~~adhesive~~ wax areas of the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing; ~~and~~

~~wherein the sheet includes a plurality of wax areas and the consumable products are releaseably adhered to the wax areas of the sheet.~~

Claim 30 (previously presented): A package for housing consumable products comprising:

a housing;

a sheet disposed inside the housing, the sheet including a plurality of adhesive areas;

a plurality of consumable products releaseably attached to the adhesive areas of the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing; and

wherein the sheet loops around the products and one side of the products is releaseably attached to an inner surface of the looped sheet.

Claim 31 (previously presented): A package for housing consumable products comprising:

a housing;

a sheet disposed inside the housing, the sheet including a plurality of adhesive areas;

a plurality of consumable products releaseably attached to the adhesive areas of the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing; and

wherein the sheet loops around the products and multiple sides of the products are releaseably attached to inner surfaces of the looped sheet.
